

PowerMEMS 2018 submission guidelines
Smart Materials and Structures (SMS)

We are delighted to welcome submissions from this year's PowerMEMS conference.

Smart Materials and Structures is a multi-disciplinary journal dedicated to technical advances in (and applications of) smart materials systems and structures, including: intelligent systems, sensing and actuation, adaptive structures, and active control. We invite you to submit Research Papers, up to 9000 words in length, containing original work for peer review, as part of our special issue 'Selected Papers from PowerMEMS 2018'.

The submission deadline for this issue will be **March 31, 2019**.

Submission instructions for invited authors

When you are ready to submit your invited paper to this collection, please visit:

<https://mc04.manuscriptcentral.com/sms-iop>

When completing the online submission form:

- Please choose 'Special Issue Article' when prompted to select your article type.
- Choose 'Selected Papers from PowerMEMS 2018' from the list of options in the drop-down menu at the bottom of the online submission form.
- Please complete all other sections on the submission form.

Important message for submitting authors

Please note that *Smart Materials & Structures* does not publish proceedings papers. All Special Issue articles must comprise new, significant and unpublished work. We will only consider novel research, which presents an advance beyond previously published literature. Papers submitted for possible inclusion in this collection can contain work presented at PowerMEMS 2018, providing they also include new, unpublished results which further advance, or offer further insight into, a particular sub-field. As a guide, we strongly encourage submitting authors to ensure that their submissions to SMS include at least 50%, new, unpublished results. Papers which do not meet this standard may be rejected without peer-review.

Published papers

Papers will be published immediately upon acceptance and collated into an online collection. Therefore, there will be no delay in the publication of accepted papers. Each paper will be published in the issue which is open and then collected in virtual collection.

Notes for authors

SMS has no page charges. The page limitation for Research Papers is 10 journal pages (around 9000 words)

Papers must fit the scope of SMS: <http://iopscience.iop.org/journal/0964-1726/page/Scope>

Author guidelines can be found at <http://iopublishing.org/img/landingPages/guidelines-and-policies/>

Please email any submission queries to sms@iop.org
